THE LOOK OF HAND-LAID STONE

DECORATIVE AND DURABLE CONCRETE WALL SYSTEM

Increte Stone-Crete architectural-wall systems are cast-in-place and deliver the beauty of stone with the strength and versatility of concrete. With quick installation, the Increte Stone-Crete system is cost-effective compared to natural materials, and unlike veneers there is never the possibility of delamination. Increte Stone-Crete is an ideal choice for foundations and retaining walls, highway sound barriers and subdivision entryways. Enjoy the beauty of hand-laid stone at a fraction of the price. The patented Increte Stone-Crete form liner system creates realistic, deep-relief appearances that are unmatched. For truly unique projects, our state-of-the-art facilities will replicate any of nature's textures and patterns.

Increte Stone-Crete walls mimic the look of natural stone with the versatility of concrete without the high cost of labor and materials. Its deep-relief texture and patented coloring process create an endless variety of designs and meet architectural specifications. Increte Stone-Crete is also the formliner of choice for quality precast projects.
