EUCOLASTIC 1NS

Eucolastic 1NS is a single-component, non-sag, low-modulus, moisture-cure, polyurethane hybrid joint sealant. Eucolastic 1NS is formulated with a unique silane-terminated polyurethane polymer, that provides unequaled performance against stand-alone polyurethane sealants. Eucolastic 1NS is an extremely durable sealant in dynamic joints, offering persistent adhesion once fully cured.

EUCOLASTIC 1SL

Eucolastic 1SL is a single-component, low-modulus, moisture-cure, self-leveling, polyurethane joint sealant. Eucolastic 1SL is formulated to be extremely durable in dynamic joints. It provides superior wear resistance to rubber tires and pedestrians in high traffic areas.
