- Hospitals

PRODUCT SUPPORT

- Specification assistance
- CAD details
- Design consultation
- Color selection assistance
- R&D laboratories
- Applied samples
- Engineered-systems approach

INCRETE CHROMA-QUARTZ is a blend of finely graded natural sand, binders, and iron oxide pigments. The result is a broadcast or trowel down seamless flooring system that offers a beautiful and durable non-slip surface. Depending upon the application, this aesthetically pleasing surface can have a positive footing or a smooth, high gloss finish. The brilliant array of colors can be used singly or in blended combinations to produce a vast palette of choices sure to match any decor or theme.

INCRETE CHROMA-QUARTZ is used in TUFFCOAT DBS and INCRETE QUARTZ EP High Performance Flooring systems. When used with INCRETE HIGH PERFORMANCE EPOXY or DURALTEX epoxies, INCRETE CHROMA-QUARTZ provides a floor that is also highly chemical resistant and very low maintenance.

CUSTOMER SUPPORT

- Technical support available for product selection, application questions.
- Distributor and contractor sourcing
- Trained regional field specialists
- Showroom and training facility
- 2-day seminars (available in Spanish). On-site distributor training and webinars by request are also available.
